

Accounting Business and Society

–Accrual Accounting and Income

WEEK3

Content

01 Key concepts

02 Assessment

03 Tutorial Activity

Key concepts

- 01 Cash-basis vs Accrual basis accounting
- 02 Adjusted Entries
- 03 Adjusted Trial balance and Financial statement

Cash Accounting vs Accrual Accounting

Accrual Accounting

- Records impact of transactions when they occur
- Required by Generally Accepted Accounting Principles (GAAP)
- Records:
 - Revenue when earned
 - Expenses when incurred

Cash Accounting vs Accrual Accounting

Cash-Basis Accounting

- Records only cash transactions
 - Cash receipts
 - Cash payments
- Ignores important information
- Results in incomplete financial statements
- Only used by the smallest businesses

Cash Accounting vs Accrual Accounting

- **Accrual accounting** records cash transactions, such as:
 - Collecting cash from customers
 - Receiving cash from interest earned
 - Paying salaries, rent, and other expenses
 - Borrowing money
 - Paying off loans
 - Issuing stock

Cash Accounting vs Accrual Accounting

- **The Time-Period Concept**

- Accounting information is reported at regular intervals
- Basic accounting period is one year
- Around 60% of large companies use the calendar year from January 1 through December 31
- A fiscal year may end on a date other than December 31
- Companies also prepare financial statements for interim periods

Cash Accounting vs Accrual Accounting

The Revenue Principle

- Deals with two issues:
 - When to record (recognize) revenue
 - What amount of revenue to record

Revenue is recognized when the business transfers promised goods or services to a customer in an amount that reflects the cash (or fair market value of other consideration) that the entity expects to receive in exchange for those goods or services.

Cash Accounting vs Accrual Accounting

The Expense Recognition Principle

- Includes two steps:
 - Identify all expenses incurred during the period
 - Measure the expenses and recognize them in the same period in which any related revenues are earned
- To recognize an expense along with related revenues means to subtract expenses from related revenues to compute net income or net loss.

Adjusted Entries

Adjust the accounts

Categories of Adjusting Entries

- **Deferrals**
 - An adjustment for payment of an item or receipt of cash in advance.
- **Accruals**
 - The opposite of a deferral.
- **Depreciation**
 - Allocates the cost of a plant asset to expense over the asset's useful life.

Deferrals-----Deferred Revenue

Unearned Service Revenue

- Receipt of cash before earning the revenue
- Creates a liability

Deferrals-----Deferred Revenue

Suppose Disneyworld Resort engages Alladin Travel, paying them commissions in advance to book clients in Disney resort hotels. Assume Disney pays Alladin \$400 monthly, beginning immediately. Alladin collects the first amount on June 15.

A1						
	A	B	C	D	E	F
1	Jun 15	Cash	400			
2		Unearned Service Revenue		400		
3		<i>Received cash for revenue in advance.</i>				
4						

Unearned Service Revenue		
	Jun 15	400

Deferrals-----Deferred Revenue

During the last 15 days of the month, Alladin Travel books four clients into Disneyworld Resort to earn $\frac{1}{2}$ of the \$400.

A1						
	A	B	C	D	E	F
1	Jun 30	Unearned Service Revenue ($\$400 \times \frac{1}{2}$)	200			
2		Service Revenue		200		
3		<i>To record unearned service revenue that has been earned.</i>				
4						
5						

Unearned Service Revenue			
Jun 30	200	Jun 15	400
		Bal	200

Service Revenue			
			7,000
		Jun 30	300
		Jun 30	200
		Bal	7,500

Deferrals-----Deferred Expense

Prepaid Expenses

An expense paid in advance.

Prepaid expenses are assets because they provide a future benefit for the owner.

Deferrals-----Deferred Expense

Prepaid Rent: Suppose Alladin's Travel Inc., prepays three months' store rent (\$3,000) on June 1.

A1						
	A	B	C	D	E	F
1	Jun 1	Prepaid Rent (\$1,000 × 3)	3,000			
2		Cash		3,000		
3		<i>Paid three months' rent in advance.</i>				
4						

Prepaid Rent	
Jun 1	3,000

Deferrals-----Deferred Expense

Prepaid Rent. Throughout June, Prepaid Rent carries the balance of \$3,000. At June 30, an adjusting entry is required to transfer \$1,000 ($\$3,000 \div 3$) from Prepaid Rent to Rent Expense.

A1						
	A	B	C	D	E	F
1	Jun 30	Rent Expense ($\$3,000 \times 1/3$)	1,000			
2		Prepaid Rent		1,000		
3		<i>To record rent expense.</i>				
4						

Prepaid Rent				Rent Expense			
Jun 1	3,000	Jun 30	1,000	Jun 30	1,000		
Bal	2,000			Bal	1,000		

Deferrals-----Deferred Expense

Supplies. On June 2, Alladin Travel paid cash of \$700 for cleaning supplies.

A1						
	A	B	C	D	E	F
1	Jun 2	Supplies	700			
2		Cash		700		
3		<i>Paid cash for supplies.</i>				
4						

Deferrals-----Deferred Expense

Supplies.

A count at June 30 indicates that \$400 of supplies remain on hand.

A1						
	A	B	C	D	E	F
1	Jun 30	Supplies Expense (\$700 – \$400)	300			
2		Supplies		300		
3		<i>To record supplies expense.</i>				
4						

Supplies				Supplies Expense			
Jun 2	700	Jun 30	300	Jun 30	300		
Bal	400			Bal	300		

Accruals-----Accrued Revenue

Accrued Revenues

- A revenue that has been earned but not yet collected.

Accruals-----Accrued Revenue

Assume that on June 15 a hotel agrees to pay Alladin a commission of \$600 for booking 100 clients into its hotel over the next 30 days. Alladin books 50 clients in June and 50 in July. Alladin will earn half a month's fee, \$300, for work done June 15 through June 30.

A1						
	A	B	C	D	E	F
1	Jun 30	Accounts Receivable ($\$600 \times 1/2$)	300			
2		Service Revenue		300		
3		<i>To accrue service revenue.</i>				
4						

Accounts Receivable		Service Revenue	
	2,200		7,000
Jun 30	300	Jun 30	300
Bal	2,500	Bal	7,300

Accruals-----Accrued Expense

Accrued Expenses

- A liability that arises from an expense that has not yet been paid
- Not recorded daily or weekly, but rather at the end of the period as an adjusting entry

Accruals-----Accrued Expense

Accrued Salary Expense. Suppose Alladin Travel, Inc. pays its employee a monthly salary of \$1,800, half on the 15th and half on the last day of the month. The following calendar for June has the paydays circled:

Assume that if a payday falls on a Sunday, Alladin's pays the employee on the following Monday.

June						
Sun.	Mon.	Tue.	Wed.	Thur.	Fri.	Sat.
						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29
30						

Accruals-----Accrued Expense

During June, Alladin Travel paid its employee the first half-month salary of \$900.

A1				
	A	B	C	D
1	Jun 15	Salary Expense	900	
2		Cash		900
3		<i>To pay salary.</i>		
4				

Salary Expense	
Jun 15	900

Accruals-----Accrued Expense

The second half-month amount of \$900 will be paid on Monday, July 1. At June 30, therefore, Alladin Travel makes the adjusting entry.

A1						
	A	B	C	D	E	F
1	Jun 30	Salary Expense	900			
2		Salary Payable		900		
3		<i>To accrue salary expense.</i>				
4						

Salary Payable			Salary Expense		
	Jun 30	900	Jun 15	900	
	Bal	900	Jun 30	900	
			Bal	1,800	

Exhibit 3-6 Prepaid and Accrual Adjustments

PREPAIDS—Cash First					
	First			Later	
Prepaid expenses	<i>Pay cash and record an asset:</i>			<i>Record an expense and decrease the asset:</i>	
	Prepaid Expense	XXX		Expense.....	XXX
	Cash.....	XXX		Prepaid Expense	XXX
Unearned revenues	<i>Receive cash and record unearned revenue:</i>			<i>Record revenue and decrease unearned revenue:</i>	
	Cash.....	XXX		Unearned Revenue	XXX
	Unearned Revenue	XXX		Revenue	XXX
ACCRUALS—Cash Later					
	First			Later	
Accrued expenses	<i>Accrue expense and a payable:</i>			<i>Pay cash and decrease the payable:</i>	
	Expense.....	XXX		Payable.....	XXX
	Payable.....	XXX		Cash.....	XXX
Accrued revenues	<i>Accrue revenue and a receivable:</i>			<i>Receive cash and decrease the receivable:</i>	
	Receivable.....	XXX		Cash.....	XXX
	Revenue	XXX		Receivable	XXX

Adjusted Entries--Depreciation

Depreciation of Plant Assets

- Plant assets are long-lived tangible assets, such as land, buildings, furniture, and equipment.
- **Depreciation** is the process of allocating cost to expense for a long-term plant asset.
 - Decline in usefulness
 - Spread the cost of the plant asset over its useful life
 - Exception: **Land** – does not decline in usefulness

Adjusted Entries--Depreciation

Equipment. Suppose that on June 3 Alladin Travel purchased equipment on account for \$24,000

A1						
	A	B	C	D	E	F
1	Jun 3	Equipment	24,000			
2		Accounts Payable		24,000		
3		<i>Purchased equipment on account.</i>				
4						

Equipment	
Jun 3	24,000

Adjusted Entries--Depreciation

Straight-line depreciation method:

- Divide cost of the asset by its useful life
- Alladin Travel Inc. Equipment:

Cost: \$24,000

Useful life: 5 years

$$\text{Annual depreciation} = \frac{24,000}{5} \text{ year} = 4,800 \text{ per year}$$

$$\text{Monthly depreciation} = \frac{4,800}{12} \text{ months} = 400 \text{ per year}$$

Adjusted Entries--Depreciation

Depreciation expense for June is recorded as follows:

A1						
	A	B	C	D	E	F
1	Jun 30	Depreciation Expense—Equipment	400			
2		Accumulated Depreciation—Equipment		400		
3		<i>To record depreciation.</i>				
4						

Accumulated Depreciation—Equipment			Depreciation Expense—Equipment		
	Jun 30	400	Jun 30	400	
	Bal	400	Bal	400	

Adjusted Entries--Depreciation

Accumulated Depreciation

- Shows the sum of all depreciation expense
- The balance increases over the asset's life
- Contra asset account, a normal credit balance.
- A contra account has two distinguishing characteristics:
 - Always has a companion account
 - Normal balance is opposite that of the companion account

Adjusted Entries--Depreciation

Book Value: Cost of the plant asset minus accumulated depreciation

A1					
	A	B	C	D	E
1	Alladin Travel, Inc.				
2	Plant Assets at June 30				
3	Land		\$18,000		
4	Equipment	\$24,000			
5	Less: Accumulated Depreciation	(400)	23,600		
6	Book value of plant assets		\$41,600		
7					

Summary of the Adjusting Process

- Two purposes of the adjusting process are to
 - measure income, and
 - update the balance sheet.
- Therefore, every adjusting entry affects both of the following:
 - Revenue or expense—to measure income
 - Asset or liability—to update the balance sheet

Exhibit 3-7 Summary of Adjusting Entries

Category of Adjusting Entry	Type of Account	
	Debit	Credit
Prepaid expense.....	Expense	Asset
Depreciation.....	Expense	Contra asset
Accrued expense.....	Expense	Liability
Accrued revenue.....	Asset	Revenue
Unearned revenue.....	Liability	Revenue

Income Tax Accrual

Alladin Travel, Inc. would make an additional adjusting entry to accrue income tax expense of \$600 and the related income tax payable as the final adjusting entry of the period.

A1						
	A	B	C	D	E	F
1	Jun 30	Income Tax Expense	600			
2		Income Tax Payable		600		
3		<i>To accrue income tax expense.</i>				
4						

Example: The Adjusting Entries of Alladin Travel, Inc.

PANEL A—Information for Adjustments at June 30, 2016

- (a) Prepaid rent expired, \$1,000.
- (b) Supplies used, \$300.
- (c) Depreciation on equipment, \$400.
- (d) Accrued salary expense, \$900.
- (e) Accrued service revenue, \$300.
- (f) Amount of unearned service revenue that has been earned, \$200.
- (g) Accrued income tax expense, \$600.

PANEL B—Adjusting Entries

(a) Rent Expense	1,000	
Prepaid Rent		1,000
<i>To record rent expense.</i>		
(b) Supplies Expense	300	
Supplies		300
<i>To record supplies used.</i>		
(c) Depreciation Expense—Equipment	400	
Accumulated Depreciation—Equipment		400
<i>To record depreciation.</i>		
(d) Salary Expense	900	
Salary Payable		900
<i>To accrue salary expense.</i>		
(e) Accounts Receivable	300	
Service Revenue		300
<i>To accrue service revenue.</i>		
(f) Unearned Service Revenue	200	
Service Revenue		200
<i>To record unearned revenue that has been earned.</i>		
(g) Income Tax Expense	600	
Income Tax Payable		600
<i>To accrue income tax expense.</i>

Close the Books

- Prepares the accounts for the next period
- Close **temporary accounts**: accounts related to a limited period of time
 - Revenues
 - Expenses
 - Dividends
- Do **NOT** close **permanent accounts**
 - Assets
 - Liabilities
 - Stockholders' equity

Close the Books

Steps to close the books:

1. Debit each revenue for the amount of its credit balance. Credit Retained Earnings for the sum of all revenues.
2. Credit each expense account for the amount of its debit balance. Debit Retained Earnings for the sum of all expenses.
3. Credit the Dividends account for the amount of its debit balance. Debit Retained Earnings for the same amount.
